

## JSPB International Symposium

Jointly sponsored by JST OPERA "Creating innovative cutting-edge technology opening up the future of food"

# Global trends of applications and regulations of plant genome editing

**Date:** 1st September 2024, 13:30-17:45

**Place:** B200 Kawauchi-kita Campus, Tohoku University, on Zoom Hybrid

**Free of charge, Please register using this QR code on the right.**

**Organizers:** Prof. Hiroshi Ezura (University of Tsukuba) and Prof. Shin-ichi Arimura (University of Tokyo)

13:30 Opening Remarks

13:40 **Masashi Tachikawa** (Nagoya university)

「Global Trends and Future Challenges in Regulations Concerning Genome-Edited Crops」

14:10 **Mieko Kasai** (American Seed Trade Association)

「Global Trends and Future Challenges in the Practical Application of Genome-Edited Crops」

14:40 **Pankaj Bhowmik** (National Research Council of Canada)

「Regulatory and Practical Challenges for Genome-Edited Crops in Canada」

15:25 **Geronima P. Eusebio** (Department of Agriculture-Bureau of Plant Industry)

「Current status of gene editing technology application and its regulation in Philippines」

15:55 **Satya Nugroho** (Research Center of Genetic Engineering, BRIN)

「Policy and Regulation on Genome-editing Crops in Indonesia」

16:25 **Petra Jorasch** (Euroseeds)

「The EU regulatory proposal for New Genomic Techniques - state of play and next steps」

16:55 **Hiroshi Ezura** (Univ of Tsukuba)

「Social Acceptance and Regulatory Challenges for Genome-Edited Crops in Japan」

17:25 Discussion
